SUPREME COURT. 28th September.

IN ORIGINAL JURISDICTION.

BEFORE MR. E. J. ACKROYD, ACTING PUISNE JUDGE.

THE CHINESH LEGITIMACT CASE: JUDGMENT This was a case arising out of the will of Tang Alok, contractor, of Victoria, Hongkong, Man suing by his guardian, Tang Chang Sai. bor 27th, 1887, by the defendent Tang Tung Shan, sole executor named therein. The caveat was on the 5th of August, 1837, lodged by Mr.

form on the lat of March following. Mr. Francis, Q.U., and Mr. Phillippo (Instruct. ed by Mr. Holmes) appeared for the plaintiff and Mr. Leach and Mr. Robinson (in trusted by Messrs. Wotton and Deacon,) represented the defendant. His Lordship said the present application was commenced on May 25th, 1889, the plaintiff

claiming, as one of the next of hin of Tang Alok to have the probate of the pretended will of the d ocased revoked. By an order dated June 27th, 1890, it was ordered, in priority to any other to oppose the will propounded by the defendant. Trial of the issue was commenced on June 30th and on July 7th by consent of parties it was sgreed that the Court should find as a fact whether Kau Chun was the legitimate son of Tang Alok or not, and if the Court should find that he was not the legitim to son then to find whether he was adopted or not, and if adopted ance of the Tytam and Pokfulant waters, by The Shen-pao, speaking of the dangers at. by what means. the defendants ought to pay the costs of an issue which they had unnecessarily raised, even if on the other issue it was found against them. Ou the face of the pleadings they might have gone at once to the main innue without raising this question at all. They had not chosen to do so and he therefore asked for costs.

His Lords ip said he had considered the matter supply. and thought it best to allow the costs to abide 一种研究中华古代代 Tig the event.

CORRESPONDENCE e.do not hold ourselves residualible for the opinions expressed by our Correspondents.] THE SHAMEEN HOTEL CO.'S

MEETING. TO THE EDITOR OF THE "DAILY PIERSS." SIR,-With reference to the letters from Mi A. B. Bodyk, and Mr. John Pitman published in your issue of this morning under the above time nor inclination to outer into a profitless newapaper controversy with either one or the other of these long-suffering martyre. At present it is only necessary to state that the gross oherges I have made against Mr. Rodyk as a dicate, whenever and wherever called upon to do so. Mr. Rodyk's "second thoughts" were

As regards the pitiable exhibition Mr. John Pitman makes of himself, I sourcely know who-Nothing else requires notice; and I need only say, in conclusion, that I am waiting for the childish threats of Messrs. Rodyk and Pitman to take the form of decisive action.-Yours

R. FRASER SMITH, Chairman. Hongkong, 28th September, 189).

THE BAND IN THE PUBLIC GARDENS.

TO THE EDITOR OF THE "DAILY PRESS." Sir. The popularity of evening concerts by the Regimental Band at the Gardens has been proved beyond doubt. The frequent appeals that have appeared off and on in your columns as well as those of your contemporaries to the courtesy of the officers to permit the Band to monthly as heretofore are. I believe, sufficient evidence that these concerts are much appreciat-

If I mistake not it has been suggested that an Amsteur Band be maintained in Hongkong by voluntary subscription for the banefit of th public. It is a matter for regret such a suggesttion has not been considered. We are, as regards musical treats, much les provided for than our neighbours at Shanghai " of sand and gravel (which are cleansed weekor Singapore, and Ffail to see why in this re-

and the sister colony when in nearly all others "1,600,000 gallone are pumped daily. The we go hand in hand with them. The band evenings at the Officers' Mess and the Barrack Square cannot be made quite as ontovable as at the Gardens owing to (1) the comparatively unseasonable hour at which the music discoursed, and (2) the entire absence of benches and a decent promenade, so essential the convenience of visitors. Yours faithfully.

Hongkong, 28th September, 1891.

THE "WHITISH APPEARANCE" OF THE TYTAM AND PORFULAM WATERS.

The following report on the whitish appear

PRELIMINARY. 1.—The hills forming the watersheds of Ty tam and Pokfulam consist o'niefly of granite and avanita. Both are highly felspathic rocks, more or less weathered, disintegration having occurred in so he places to such an extent as to form slavey beds of laterite with boulders of unaltered rock lying in them.

. 2 .- The water draining from the slopes at 

3. -Except during and immediately after The latest reports from Foodhow state every- defendant's case the plaintiff has produced uniple heavy rains the water in these streams is clear. containing less than 5 grains of total solids per suspended matter, derived chiefly from the disis due. This undesirable feature is much aggravated wherever the hill sides have been out into by road making or building operations Recently this has been partially remed ed by turfing over the exposed surisoes, but I doubt if it is now possible to avoid the deteriorating effect due to the exposed surfaces of roads. I suggest that no further excavations of any kind i without the strictest conditions being enforced. and as far as possible all exposed surfaces turfed.

power was an accessory before the fact, if he did not settably order the stack on Dr. Greig.

Dr. Lowson and Cantain: atton, are also determined to continue the following and continue the following at the following and continue the following at th prevailing public continent on the question." Mr. Francis-Your Lordship finds as a being protected from the direct rays of the sun

9.-At the Albany, on the contrary, the serwere tank is oped, and in an exposed situation, Mr. Francis applied for costs. He said that consequently the water gets heated, loses a part of its dissolved gases, and rapidly becomes flat and vapid. Besides this the surface of the water in the tank never appears to be clean, always containing more or less floating debris, which under

> 10.-After filtration the water is of a very noon, when the Band was playing its best and a high standard of purity, notwithstanding its large number of ladies were to be seen among occasional milky appearance. In fact there are the spectators, would have been calculated to very few water supplies equal to this, and I give any stranger a good impression of the numknow of mone that rank above it The organic bers and material prosperity of the foreign constituents and oblorine are exceptionally low, population of the settlement. The Shanghai and even in its worst condition the water is softer and contains less total solids than almost any public supply in Great Britain.

the existing conditions cannot possibly be kept

CAUSE OF WHITISH APPEARANCE. 11.-In my opinion the sause of the whitish appearance does not originate in the reservoirs be referred to the source of the water.

12.—The water falling as rain permeates the cricket of St. Croix and W. H. Moule, 100 rocks, and yields up its dissolved oxygen and runs had been registered with only one wicket carbonic soid to enbstances capable of combin- down. Everything seemed to indicate a long ing with them, often penetrating great dis- score in prospect; but at 107 St. Croix, when well tances, and probably meeting with subterranean set, was cleverly thrown out, and from this point sources of carbonic acid which it absorbs, there- the batting broke down completely, the last eight by increasing its solvent action. The rocks wickets only producing 73 runs, and Shanghai most acted upon are felspathic, consisting chiefly being left in a minority of 88 on the first innings. of alumina, iron, calcium, magnesia, silica, There was nothing in the state of the ground and the alkalis. The action of a soft agrated to account for this collapse, which seemed to valuable service to their sid. Orman's score of water on such rocks consists not merely in be brought about more by good bowling than solution; but in the decomposition of the anything elec. In the follow on, however, silicates. The peresity of rocks which such a Shanghai fully atoued for the comparative careful way he played his 33, not including penetration presupposes is of a very general failure carlier in the afternoon. Orman, after a character, even as regards the most compact couple of narrow escapes early in his innince, rocks. Calcium silicate is readily decomposed settled down and played faultless cricket. His by a solution of carbonic acid, alkaline carbonates, cutting and placing to leg were a treat to see and playing better and better as the day were on, but magnesium ellicate is unaffected by either. as he left off with a score of 64 and is still not and he and St. Croix made a capital stand after Of the substances present in spring water, some out, he has a good chance of making a flue score. tiffin, adding 39 to the score before St. Groix such as the earthy carbonates are no doubt Wallace, his partner, deserves almost equal was caught by Hannay-being this fiel ler's derived from direct solution of the rocks, but praise for his steady defence. The bowlers were the retirement of the next four batsmen with there are others such as the alkaline carbonates naturally tired during the Shanghai second which do not exist in any rocks. Such substances innings, but the two batsmen's feat of going in can only be supposed to originate from the de- when the game was considerably in favour of the the chances of Shanghai considerably, but the composition of the minerals contained within the other side and scoring 92 without being separat stand made by A. J. H. Moule and Stewart late rocks. It is such a decomposition of minerals | ed; was nevertheless a very fine one. It will contained in rocks that in my opinion causes the be seen that of the Hongkong bowlers in the cheered. Stewart and Moule practically saved whitish appearance of the Tytam and Pokinlam first innings Lowson was the most successful, in the game, for they brought the score up to 300 waters. This is not poculiar to Hongkong, but spits of his bad log, from which it may be fairly for Swickets when atumps were drawn, so that is known in a few other localities, one of which assumed that, had he been fit and well, the is Worcester. England. The action may be Shanghai score would have been less than it shortly described as consisting in the abstraction was. The Hougkong men bore their long outof the whole of the alkali, two-thirds of the si- ing very well: the picking up and returning belies, and the assumption of water as shown, jug consistently smart and clean; but the catchan ultimate product being a hydrated silicate of ling was not so good, and a reliable wicket ke-per powder known as kaolin. This on account of its to bestow too much praise on Capt. Dunn's division remains suspended in the water for an by him with consummate judgment, and the indefinite period, and practically defles simple placing of the field was something to be studied filtration, even in small quantities, except and remembered. through its own sediment.

18 .- The following is an extract from a report on the Worcester Water Supply, by the city Analyst, Mr. B. Swete:-

"The water is taken from the Severn one "mile above the city, passed through filter beds "ly), then pumped up to a reservoir on a hill. spect we should be behind the model settlement "and supplied by gravitation to dwelling houses; water contains peat and kaolin (white-water) "from the decomposition of the felspathic rocks in Montgomeryshire...... White-water cannot "be clarified by filtration."

Below are the results of an analysis of the Worcester water, and for the sake of comparison I attach a copy of a recent analysis of the supplies here. I refrain from making any further commont beyond pointing out that if the ourbonate of lime in the Worcester water supply would be identical. The amount of carbonate a lucky snick for 4 from a fast ball which broke The next performance of note was a fine drive of lime in the Worcester water is indicated by in from the off and seemed quite to best the made by Orman off Lowson for 4, and with a

HONGKONG U. SHANGHAI.

We take the following account of the second day's play from the N. O. Daily News : -All Shanghailanders interested in cricket has a great treat yesterday (22ad September). The weather was delightful, and the cricket was good and interesting; so that there was absolutely noout, and probably accounts for the slightly larger thing left to be desired. The attendance was amount of ammonia in excess of the Pokfulam perhaps larger than at any cricket match ever played in Shanghai: and the scone in the aftermen, who were batting all day, gave a cariously unequal display on the good wicket, but nevertheless left off with none the worst of the game. It will be remembered that evernight Shangkai, going in against a total of 368, had goored 20 without loss. Yesterday everything or filtering beds as has been supposed, but must | went well with the home team until shortly after tiffin-absit omen ! Chiefly through the steady

At present Shanghai are 4 runs shead with all ten wickets to fall in their second innings. a.m., and if the day should not be long enough Details are appended :to allow of any definite result being arrived at between two such well matched elevens is divided Appended are details of the second day's play: Play was resumed at 11.35, the not outs. Mann

6) and W. H. Moule (2) being opposed by C. Barff and Duna (pavilion end), Lowson keeping wicket. Runs came slowly at first, the important item being a 3 snick by Monle. and in Barff's third over Mann hit out at a fast delivery and was clean bowled, the ball taking to reach which Orman was quarty put out by the top of the legistump. One for 29. After the arrival of St. Croix only singles were scored | the first ball in Duna's next over achieved this, for several overs, but at length Moule obtained batsman. After several singles from the slow couple of anyles, a two, and a three the score bowler St. Croix drove him finely over Barff's head for 3. For some time after Boyle took the bowling at the far end, his first this the most important item was an off-drive over being a maiden. Dung was more unforfor 2 by the left-hander, the bowlers being well tunate in the next over, his first ball being sent ou the wicket. Fifty was reached at 12.5, and with spinning by Orman for four, and his third by the one run added Dunn handed the hall to Dumble. same batsman for a single. Boyle next secured ton, another slow bowler. Steady play continued, another maiden, Orman treating his dodgy the monotony being only broken by Moule balls with the greatest cention, and C. Barn making a pretty stroke to leg for 3. E. W. | took charge of the trundling in the next Muitland relieved Barff at 60, and St. Croix over, replacing Dunn at the Pavilion end. brought out a round of applause by hitting a In his first over 5 runs were scored, one by

Harff opened with a maiden, but Maitland's first similarly, but Orman was run out in attempting to over produced 10 runs, Moule making a 3 to the scorearun on the next ball. His score of 91 includoff, St Oroix 8 (two for an overthrow, Boyle re- ed five fours, four threes, and nine twos. 139 for turning the ball very wide from cover point), 2 wickets. Mann was the next to go in, but the and Monle a brilliant cut past point for 4. The first over was a maiden, but four runs were hundred was signalled at two o'clock, and at 102 scored by byes in L. Barff's next over, and a run Barff (fast right hand) was tried in place of by Moule, another maiden going down to the This analysis conclusively proves what I have Maitland. Then a great misfortune befel Shang. | credit of C. Barff next. Lowson then resumed advanced in this report as to the origin of the hai, St. Croix calling his partner for a sharp run bowling at the far end, and runs for several should be permitted within the drainage areas solids in the water. It should be borne in mind behind the crease, and Ram, fielding long stop, minutes came very slowly. C. Barff bowling four that the quantities of several of the constituents smartly throwing down the batsman's wicket be. maidens in succession, and eight overs producing vary according to the time of the year. Owing to fore St. Croix could reach it. Except for a chance live runs only. But at last Mann got away a ball the proximity of the reservoir to the sea strong at the wicket when he had made 20, St. Croix of the younger Barff's for three, being caught 4.—The turbid mater that comes down during gales carry the apray inland, which fact alon had played admirable cricket for his 36. A. J. aufortunately at 154, by Haunsy off E. W. Maitheavy rains is extremely difficult, to filter. It accounts for a variation in the so inco chloride H. Then there is the inscription on the tombstone in the the conduit direct. The results of such an ar- and as stated in the covering letter, it has been Noule running out at Boyle's fourth ball and defendant in his evidence cays, "I have seen the exercise their purifying and exidising functions. 16.—It has been found that the power of water Robertson, who was very nearly caught at short. Correspondents are requested to forward their name been caught, and a state of terror reigns in inscription put in by the other side. I have

applauded for his good batting at a oritical neither the bowling of Dunn, nor Bart, from

Orman and Wallace opened the Shanghai secondinuings at 4.10 to the bowling of Lowson (pavilion end) and Boylo. Runs came steadily, principally by means of small hits, but Orman did not appear comfortable. When he had only scored 6, he was missed at a ver point by L Barff, who got the ball low but did not hold it; and in the next over from the other and Orm in gave what looked like a chance at the wicket. After this Orman got Boyle away to leg for 3 and 2, and Wallace drove Lowson beautifully to the on for 4. Barif came on at 21, and Orman cut him past point for 4, after which he hit Boyle in the same direction for 3. As no wicket fell. E. W. Maitland bowled at 31 and Dunn at 37. Still rans" came steadily, almost entirely from Orman's bat, and 50 was reached just after five o'clock. Ormatthen got Dunn to leg for 2 and drove him to the off for 4-a beautiful stroke ... Runs were still added, in spite of repeated bowling changes, and at 5.40 a loud cheer amounced that the defigit had been wiped off. Four more runs were scored in the next over, and then stumps were drawn, the score standing at 92 for no wicket. Orman was loadly choured on returning to the pavilion, and Wallace was not forgotten. We take the following account of the third

lay's play from the Mercury !fo-day (23rd September) was rather colder and duller than yesterday, but this did not prevent a considerable number of people. including ladies, from putting in an appearance. Shanghai resumed its junings in a very promising manuer, Wallace and Orman holding the ground for a long time against all comors, but they were both out before tillin, having randered in-91 was a pertioularly well-played innings, and Wallace deserves great credit for the placky and Moule, who went in after Orman, stayed at the wickets for the greater part of the afternoon, the addition of some 80 odd runs only reduced 213 to win. The bowling and fielding of the visitors was sgain admirable, C. Barff putting together 10 consecutive maidens.

Hongkong played five wickets, including E. W. Maitland; not out, of a second innings and aluminium, existing as a soft white unctuous was very badly wanted. It would be difficult ran up the respectable score of 72. It was discourse a programme fortnightly instead of low specific gravity and extremely fine state of generalship. The bowling changes were worked the early bats, Captain Dumbleton, Major Han-E. W. Maitland seemed to settle diwn to the bowling and bade fair to make a large score when stumps were drawn. The bowling of Nichol and Lees was very good and the fielding of Wickham To-day (23rd) play will be resumed at 11 30 and the younger Moule evoked loud applause.

At 11.45 the two Shanghai bats, Orman and it is sinceraly to be hoped that arrangements | Wallace, went out to meet the bowling of Lowwill be made for a fourth day's play, on Batur. son and Dunn, the former bowling first over day. It will be a great pity if our visitors are from the far end. On the third ball, Wallace illowed to leave before the question of superiority added another run to the score of 92 at the and of yesterday's play, and Orman added another on the last ball of the over. Dunn now took the bowling, his over resulting in a single, while Lowson's next proved a maiden. One run was seered in Dunu's next by T. Wallace, which was splendidly fielded, and this bateman out Lowson's third ballin the next over oleg for three, bringing the score to one run short of the century, in trying the wicket keeper. A out of Wallace's for 2 off the secre being now 101 for no wicket down. went up past 110 at 12 o'clock, at which point very badly pitche | ball from Dumbleton to Wallace, and four by Orman through a bye. square leg for 4, and outting the next ball | Boyle suffered severely in the next over, Orman but one past cover point for 4, all run, scoring six runs in two hits, the same batsman 14.—So far as I am aware a complete mineral Monle responded with a beautiful 4 out past putting up three rups in the next over of point off Maitland. Dunn resumed vice Barff's, whose brother took the bowling in the ball in his hands, appealed to the umpire, who attempted to out, but dropped into the hands of instantly dropped the ball and as he had not, in | 39 was made almost without a mistake. W. H. the ampire's opinion, held it sufficiently long to Moule now went in to join Orman; C. Barff's constitute a catch, the previous decision was re. next over being a maiden and so was his brother's versed. From this point until the interval the succeeding one, for Moule was not to be tempted only important hit was an uppiet out for it by by his tricky bails, but Orman managed to get Croix. The score at the adjournment stood away C. Barff's first ball in the next over for a at 88, Moule not out 35, and St. Croix not out 30. single, the only run made in three overs, however. Play was resumed at five minutes to two, Barif In L. Barff's next over Moule scored his first run (pavilion and) and E. W. Maitland bowling, off the first ball, Orman treating the seco d Monn having made four runs. After tiffic, which the credit of Shanghai, St. Croix scoring the first land's over. C. Barff next bowled another maiden, his sixth in succession, and the next over he

bowled made his seventh, but Monle scored a ran in Maitland's next. Runs continued to be made slowly, but at last St. Croix got Maitland away for three, Barff having bowled another maiden Wong-nei-chong Valley applying the same word rangement are very apparent. The fi tering arranged with the Resident Engineer to make a being clean bowled. Moule was at the wickets in the meantime, and St. Croix secred another to both sons. That this stone was erected by Tang. Alok I think there can be little doubt. Tang Heung Tai says be did so and the Barff succeeded in bowling his tenth maiden, but Moule succeeded in outting Lowson's second ball never seen it before. I have not been there. I be overlooked, for if a filter bed has had an al- presence of small quantities of alkali, alkaline In the same over another disaster befor the bat- (that bowler having just gone on at the far end) Viadivestock.—N. THE CAPSIZING OF THE CAPE CILY" AT NAGASAKI. The Rising Sun says :- One of the saddest and most unfortunate accidents that it has ever been our duty to obroniele cocurred in this barbour on Monday afternoon, the 21st Beptember. We refer, of course, to the capsizing of the British barque Caps, City during a dead calm, and the drowning of the captain's wife and the second officer. The Cape City, Capt. Whetherall, an iron vessel of 439 tons register, owned by Messrs. Hopkins, Dann & Co., of Bhanghai, arrived here from that port at noon on Sunday last, in ballast, consigned to Chinese, and anchored off Tategam! discharging of the ballast was commenced on Mount y morning, and finished about 4 o'clock the same afternoon. In the meantime, man had been set to scrub the outside of the ship as for down as the water would allow. From what we can lears, the ship was purchased with a certi-ficate to the effect that she would stand up without ballast, and only recently is said to have been dooked in Shangliai in that condition without showing shy signs of being dangeronaly "crank," consequently no fears, were entertained for her safety by the captain but, at the same time, the wisdom of empty. ing a ship before the sargo was even alongside, sepecially at this tranchorous season of the year. is certainly open to question. Apparently every. thing went well until about four o'clock, when she took a strong list to starboard and about fifteen minutes later she suddenly capazed. All on board were, we believe, on deck at the time, the captain and his wife standing glose together. They were thrown into the water, and as soon as the accident happened a number of sampans rushed to the scene, but, sad to relate, on mustering the rescued it was that the captain's wife and the officer were missing. Diligent search for them was continued, and the Mitsu Bishi Co. diving barge came post basts to render every possible assistance. Mr. Mansbridge went down in a diving dress, as did also several natives without any dress, bu the water was so muddy that i

Vaid search for some time it was given up. the foregoing we perhaps cannot do befter than add a brief account, kindly sent us by a lady eye-witness, as follows:-".I was on my verandah at 4.15 on Monday afternoon last. looking out over the harbour, when my attention was drawn to the Cape City because she was leaning very touch to one side. I had fatched her for perhaps a minute, when she turned over quite spadonly on her side, with a loud splash, snewing her keel as she did so. She remained on her side, with portions of her yards showing along the water, for about 11 minutes. During that time I fetched my opera glasses, and with their aid could see people struz-gling in the water. While I was looking. the ship turned slowly over and sank entirely disappearing from sight. It semed to me that several of the people in the water were drawn down with the ship. About half a minute after the went out of hight, her maste reappeared. with all three of the top masts broken off and hanging down, and almost immediately afterwards the water above the ship became much agitated, and showers of spray barst upwards with considerable force. t saw the survivors ject of a Naval Court of Inquiry.
